

SOS ALARM
3273 Biddle Rd
Medford OR 97504

Supervised Opening and Closing Schedule

Your opening and closing schedule is determined by the first person to enter and the last person to leave the premises each day. It is best to make your opening time a little earlier and your closing time a little later each day (e.g. 30 minutes each). This helps eliminate extra calls to our central station authorizing slightly early or late exceptions.

Monitored System Options

Open/Close with no reports - \$5.00 per month

Central station computerized logging of all open/close information including date, time, and user information. Available to customer by phone with proper identification. Subscriber may call at any time for this information. Should you request a report of activities there will be an extra charge.

Open/Close with monthly reports - \$10.00 per month

Same as above with reports mailed or e-mailed to customer monthly. Additional reports will be charged at \$5.00 each.

Supervised Open/Close by user, no reports - \$15.00 per month

Monitoring for designated open/close times by code only for irregular activities. Information is logged at the Central Station but not mailed to customer. Available to customer by phone with proper identification. Customer may call at any time for this information.

Supervised Open/Close by user with monthly reports - \$20.00 per month

Same as above with reports mailed or e-mailed to customer monthly. Additional reports will be charged at \$5.00 each.

Supervisory

Monitoring of any device that does not require police or fire department response. Central Station will contact subscriber upon alarm activation, e.g. low battery, freezer/refrigerator alarm, pit valve, water shut-off, temperature alarm.

Customer will be charged \$5.00 per month for monthly reports plus \$5.00 for each additional report.

Customer is responsible for notifying SOS Alarm any time there is a change of code number or phone number of any responsible party.
